Professional Summary

A highly motivated and results-oriented graduate seeking a software engineering position. Passionate about applying technical and analytical skills for continuous learning, innovation, and professional growth. Eager to contribute to a dynamic and collaborative team with the aim of driving impactful results and ensuring long-term success for the organization.

Education

Geethanjali Institute of Science and Technology
B.Tech, Computer Science and Engineering (AI and ML)

Nov 2021 – May 2025
CGPA: 7.26 / 10.00

Krishna Chaitanya Junior College
Intermediate :Maths, Physics, Chemistry

June 2019 – March 2021
CGPA: 7.06 / 10.00

Pragathi Maha Vidyalaya
SSC

June 2018 – March 2019
CGPA: 8.7 / 10.00

Technical Skills

Languages : Python, Java, C#, MySQL
Web : HTML, CSS, JavaScript
Frameworks/Tools : Flask, Django, TensorFlow, NumPy, Git
Concepts : DSA, DBMS, OOP, ML Algorithms
Soft Skills : Communication, Teamwork, Problem Solving

Internships

Blackbucks Engineers Company

Mar 2025 – May 2025

AI - ML Intern

Hyderabad, Telangana

– Implemented ML models using Python, TensorFlow, and scikit-learn. Focused on data preprocessing, model training, and evaluation in a hands-on AI project.

IIDT Blackbucks Company

Mar 2024 – Apr 2024

Full Stack Developer Intern

Tirupati, Andhra Pradesh

– Worked on responsive web applications using React.js and Django. Integrated MySQL databases for backend and collaborated using Git in an agile team.

Projects

Plant Disease Recognition Using Deep Learning (View on GitHub)

April 2025

- Built a plant disease recognition system using the PlantVillage dataset (50K+ images), achieving 97% accuracy by combining ResNet50 for classification and YOLOv5 for real-time leaf detection.
- Fine-tuned the ResNet50 model using TensorFlow and Keras, and integrated it into a Flask web app that predicts diseases from user-uploaded leaf images.
- Designed a fully responsive UI with HTML, CSS, JavaScript, and JSON to ensure seamless interaction and real-time result display.

Portfolio Website (View on GitHub)

March 2024

- Created and deployed a personal portfolio website using JS with responsive design, mobile compatibility, and project showcase features.
- Implemented smooth animations, section scroll reveal, and typing effects to enhance interactivity and user experience.

Certifications

- Python Programming - Besant Technologies / June - 2025
- AI/ML Virtual Internship - EduSkills / Apr - 2024
- AWS Cloud Basics - Coursera / Mar - 2024
- Organized College Tech Fest / Mar - 2025
